About us

Company Profile

Since 1950, Ma King Kee has delivered reliable reprographic solutions across Hong Kong and Macau. With 10 branches and 100+ team members, we combine decades of expertise with modern efficiency to ensure high-quality products and prompt service for every client.

Customer-centric by design, we prioritize their needs above all—understanding that their success drives ours. This philosophy guides our commitment to adaptability, precision, and consistent excellence, making us the partner of choice for over 70 years.

馬景記
Ma King Kee

Our Service

We provide precision reprographic solutions:

- Large Format Photocopying
- Digital Document Output
- High-Quality Printing
- Wide Format Scanning
- Color Imaging
- Microfilm Conversion

Agile & adaptive, we align with market needs and anticipate client demands—evolving our services to stay ahead of industry trends.

Our team combines expertise and dedication, delivering seamless service through responsibility, collaboration, and a focus on your success.

馬景記
Ma King Kee

Internal Service

Large-Format Solutions: Strategic partnerships with HP and Canon enable us to deliver precision B&W and color outputs using their flagship technologies, ensuring innovation and reliability for large-scale projects.

Small-Format Expertise: Collaborations with Fujifilm, Canon, and HP offer end-to-end services—from everyday B&W / Color copying to professional-grade outputs like tender documents, reports, and impactful color displays—tailored to diverse needs.

By combining leading technologies with versatile capabilities, we ensure consistent quality across all formats.

Scanning workflow

Scanning Workflow Diagram

Black and white

The paper original is fed into the scanner and scanned line per line.

Each scanned image line is convert on a scale of 0-255.

This generates the 256 grey scale image

(image date in 8-bit form, representing 256 grey scales per pixel)

Color

The Original is fed into the scanner and scanned line by line. Each pixel is converted on a scale of 0 to 255 for red, for green and for blue.

This generates a 24-bit RGB image

(256 levels per color requires 8 bit per color)

About

FUJIFILM
Value from Innovation

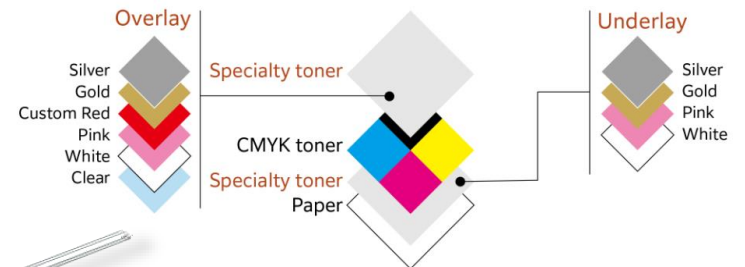

Revoria Press PC1120

- Superior productivity with **high-speed printing of 120 ppm** even when printing in **6 colours**.
- High-definition expression with high-output resolution at **2400 x 2400 dpi**.
- High-performance print server that maximizes print engine productivity.
- Supports a broad range of stocks: **52 gsm - 400 gsm** paper and paper size from a minimum **98 x 148 mm** and **up to 330 x 1200 mm**.
- Various feeding and finishing options to streamline workflow from print to post-press
- **1 pass 6-colour** print engine
- In addition to CMYK toner, the press **can load a maximum of two specialty toner stations**.
- For specialty toner, choices of *Clear, Gold, Silver, White, Pink and Custom Red*^{*1*2} toners are available.
- By overlaying CMYK on Silver or Gold, you can print various **brilliant metallic colours**.
- The rich colour expressions created by the **6-colour print engine** can expand your business

Revoria Press PC1120

6-colour print engine brings expressive power to digital

馬景記
Ma King Kee

About **FUJIFILM**
Value from Innovation

Iridesse™ Production Press

- **One-pass 6-colour print engine** enabling rich color expressions that could not previously be achieved with digital printers.
- Underlay with **specialty dry ink** realises offset-like metallic colours.
- *Gold, Silver, White, Clear* and new *Pink dry inks*, bring new possibilities of design expression.
- **High printing resolution** that realises high-definition images.
- Fine expression of texts, thin lines, and gradations with the **1200 x 1200-dpi x 10-bit rip rendering**.
- Industry-leading flexibility with the support for lightweight and heavyweight stocks from **52-400gsm**.
- Supporting a variety of paper sizes including postcards and banners.

Mixture of **pink dry ink** with CMYK colors will enable printing *orange, red, violet and other colors* with a vibrancy that cannot be achieved with CMYK colors alone.

KIP Scanner

KIP 2300 CCD SCANNING SYSTEM

- The new KIP 2300 high productivity scanner sets a uniquely high standard for speed, quality and flexibility in a digital image capture system.
- Outstanding image quality is delivered through the innovative use of bright white LED light sources for illumination and **600 x 600 dpi** image capture resolution.
- The KIP 2300 is a **high speed scan** solution that provides world-class workflow flexibility through its ability to scan face up or face down and scan thick mounted originals and loose sheets of paper from a single unit.
- The KIP 2300 scanner is powerful, with image **capture speeds from 5 ips to 12 ips in monochrome (dependent on dpi) and 2 to 6 ips in color**. The image capture area is up to **36 in. wide**, yet originals up to 42 in. wide may be fed through the scanner.

Three independent imaging cameras
with an advanced laser alignment
system and self-calibrating diagnostics
provide an extraordinary level of quality.

About Hewlett Packard

HP HD Pro 42-in Scanner

Accurately reproducing artwork, maps, technical drawings, and photos in color and black-and-white, and building an efficient print-scan-copy solution.

- Reproduce everything from technical documents to graphics—even damaged originals—with **CCD scanning** technology.
- Create large-format color and monochrome scans **up to 42-inches (1067-mm) wide**
- Produce incredibly accurate and high-quality **scans with 1200 dpi optical resolution**.
- Easily share and collaborate—scan to HP SmartStream software, email, USB, network folders, and HDDs.
- Speed up to **15 cm/sec (color, 200 dpi)**; up to **33 cm/sec (grayscale, 200 dpi)**
- Can scan media **thickness 15mm**
- Support format PDF, TIFF, JPEG, JPEG2000, DWF, CALS (B&W); multi-page PDF generation
